

Guidelines for Group Project Presentations

This document provides detailed guidelines for the Group Project Presentations for ICT 364 – Database Management Systems. Each group is expected to present their project in Week 10 and submit their slides and project report on Moodle.

Presentation Requirements

- Each group will deliver a 15–20 minute presentation.
- Presentation should include both slides (10–12 minutes) and a live demo (5–8 minutes).
- Slides must include: project title, group members, problem statement, objectives, ER diagram, schema, and key features.
- Demo must include: at least 2 SQL queries, one data entry form, one report/visualization, and one security feature.
- All group members should participate in the presentation.

Deliverables

- PowerPoint presentation file (GroupX_Project_Presentation.pptx).
- Final project report in PDF (GroupX_Project_Report.pdf).
- Submission must be done on Moodle before presentation day.
- Include names and student IDs of all group members on both the slides and the report.

Assessment Criteria

- Problem statement & objectives – 2 points
- Database design (ERD + schema) – 2 points
- Functionality demo (queries, forms, reports) – 3 points
- Security feature – 1 point
- Presentation quality (clarity, timing, teamwork) – 2 points
- Forum reflection activity – 2 points (separate)

Tips for a Successful Presentation

- Rehearse your presentation as a group to ensure smooth flow and timing.
- Assign clear speaking roles for each member.
- Test your database demo in advance to avoid technical issues.
- Keep slides clear and concise – avoid too much text.
- Focus on showing how your project solves the problem you identified.

Remember: the Group Project Presentation is your chance to showcase everything you've learned in this course. Be confident, collaborate effectively, and highlight the strengths of your project.
